Yoemen Trounce Mexia Blackcats By The Score Of 26-7

Cameron's Fighting Yoemen, moving behind one of the hardest hitting lines in Central Texas, smeared the Mexia Black Cats Thursday night to the tune of 26-7.

All through the first quarter, the Yoemen were handicapped by an acute case of "fumbleitis." Batte fumbled three times, recovering twice and losing the ball once. Lankford bobbled once during the quarter with the Cats recovering.

Yoeman speed and guts began to show early in the second quarter. Starting from the Cat's 41, in consecutive sprints, Lankford dashed for 5; Thompson for 5; Rosenberg for 3; Batte for 5; Thompson for 14; Lankford for 7, and then Lankford again for 2 and the first Yoemen TD.

Rosenberg's beautiful kick-off to the Cat's goal started things rolling for the second Cameron tally. The kickoff was returned to the Cat's 5 by Burrows where he was smeared by Batte. At this point the Yoemen line held fast, Offield driving hard under the Cat plays. The Cats were forced to kick from their own 9. With Cannon punting, Lankford received on the Cats 45 and handed off to Rosenberg, whose path was cleared by a beautiful block by Stanislaw.

Three plays later, after taking a 15 yard offensive holding penalty, the Yoemen started their second TD drive.

With the Yoemen line ripping open wide gaps, Thompson carried for 5; Rosenberg, 14; Lankford, 10; Thompson 5; Lankford, 5; and Rosenberg the final 5 and a TD. Rosenberg missed his conversion.

The half ended with the count standing at 13-0.

The Yoemen made their mark twice again in the third quarter. About midway in the period, standing on his own 45, Batte connected with Rosenberg for a 33 yard pass. On the next play, Lankford, behind beautiful blocking, streaked around left end and across the double stripe. Rosenberg again missed his conversion.

Late in the quarter Offield, the outstanding defensive player of the night, recovered a Cat fumble on their own 40. From here the Yoemen battered to the Cat's 21. Then, on the old "Statute of Liberty", Rosenberg made the prettiest dash it's been the pleasure of the fans to see this year. After he had been cleared through the defense, but unable to receive friends.

line by his blockers, he snaked his way through the entire Cat secondary. Although his path was blocked four times after he passed the line of scrimmage, not a man layed a hand on him before he crossed the Cat goal.

The lone Cat mark came only 5 plays deep in the last quarter.

Starting from the Cat's 49, Sawyer connected with fleet footed 119 pound Bobby Richardson of the Yoemen 40 from where he scampered another 29 yards to the Yoe 11. Cannon and Burrows then drilled to the one, and Hill crashed over. The conversion by Cannon was good.

After this, both lines held tight and the game turned into a punting duel. However, neither team could make a mark and the tilt ended with a final score of 26-7.

Special praise should go to the Yoe line who, although outweighed 14 pounds to the man, repeatedly tore large gashes in the beefy Cat line. Special praise is also due Eddy Lankford, whose sensational scampers accounted for a large part of the Yoe yardage gained.

Several burglaries that occurred in Milam and Robertson Counties in recent months have been cleared up due to the careful and thorough investigation of Sheriff Carl C. Black.

Burleson and Allen stole all of the out-going mail, according to Sheriff Black. Some of the mail was recovered, the remainder was

burned it was reported. A check of approximately \$300, was cashed at Bell Tailoring Company at Waco, Tuesday around 8 a. m.

A number of Robertson county robberies were cleared at the same time by careful checking, according to Sheriff Black.

Joe Burleson, brother of Rufus Burleson, and M. C. Allen, along with Rufus Burleson were alleged to have been implicated in a theft this spring of farm implements and equipment from the Pete Gibson place.

Married Men, Childless Now To Face Draft Call

Washington, Sept. 26.—President Truman Wednesday signed new draft regulations making 500,000 childless married men eligible for military service.

The new regulations are designed to put into effect the draft law enacted by Congress last June.

It narrows military exemptions by making eligible for service married men with only a wife as a dependent, except in cases of extreme hardship.

Brig. Gen. Louis Renfrow, acting director of Selective Service, told newspaper men the new regulations make some 500,000 men heretofore deferred, eligible for duty.

Renfrow added that Selective Service hopes to get 200,000 men out of that total. This estimate may be high because the Army's

rejection rate heretofore has been about 53 per cent, and various other causes have affected eligibility.

The new regulations for the first time also:

1. Make aliens with permanent residence in the United States liable for the draft. They are exempt, only if diplomatic personnel, or if they are citizens of one of 20 countries with which the United States has signed military exemption treaties. Aliens previously had not been liable unless they had taken out their first citizenship papers.

2. Allow 17-year olds to volunteer for induction with the written consent of a parent or guardian. Volunteers have not been accepted heretofore until they

Methodist Home Children in Sunday Radio Series

The Methodist Home Choir of Waco, Texas, will be a feature of the radio series, "These Are Your Children" heard each Sunday morning at 8:15. The programs will continue through December 16, over 15 radio stations in Texas and New Mexico, featuring stories of life at the Methodist Home for Children, according to Hubert Johnson, Superintendent of the Home.

Mr. Johnson said that a few of

the many interesting and inspiring subjects to be brought into the home via radio on Sunday mornings will include religious training and counsel to a child receives; how he is taught to work and to assume responsibility; his general education and study helps; vocational training plan and how he is sheltered, clothed and fed.

The Methodist Home is owned by Methodist Churches in Texas and New Mexico and houses more

than 400 children. The Home is non-sectarian.

Stations which will carry the programs include:

WFAA, Dallas; WOAI, San Antonio; KPRC, Houston; KRIS, Corpus Christi; KRGV, Weslaco; KGNC, Amarillo; KROD, El Paso; KGGM, Albuquerque; KFYO, Lubbock; KFDM, Beaumont; KFRO, Longview; KVAL, Brownsville; KERB, Kermit; KTVC, Austin; KBST, Big Spring.

First Year College Men Will Get A Break

AUSTIN, Texas.—The freshman college student gets a break this fall if he receives an order to report for induction from his draft board, says Brig. Gen. Paul L. Wakefield, state draft director.

"If a man is in his first year of college and has never before been postponed or deferred to stay in school," General Wakefield said, "he automatically gets a deferment for a full academic year."

"Congress has given the first-year man a break," the state draft board members director continued. "He doesn't have to satisfy board members or meet any test or scholastic requirements. He only has to pursue a full-time course of instruction to the satisfaction of college authorities."

General Wakefield advised freshmen they "had better study hard this fall and next winter and spring," as they will likely have to satisfy minimum draft board standards for deferment in the second scholastic year.

"One of these standards is their first-year class standing," he pointed out. "So it would be a good idea for a freshman to start applying himself from the beginning."

"Apparently, Congress decided that every young man who goes to school would get the same chance the first college year," he continued. "After that he has to prove on the basis of his own merit that he is due further deferment to study."

Undergraduates beyond the first year, in order to be eligible for deferment under the student classification plan, must satisfy the draft board on at least three out of four points.

(1) Successfully have completed at least a year in college, (2) be accepted for admission to the class next commencing, (3) have a record of required scholastic standing in his last year of work, and (4) have made the required score on the Selective Service college test.

Under the plan, the student must satisfy the first two requirements and one of the third or fourth. A local board can also consider other information about a student.

"Boards may take under consideration any information outside the scholastic," General Wakefield said. "They are not bound to consider tests or class standings, but their decisions are subject to appeal by the student if he acts within 10 days."

The state draft director noted that Selective Service regulations are different in the case of graduate students and professional students of medicine and related fields. These are eligible for deferment if they currently meet requirements leading to graduation or degree.

General Wakefield emphasized that educational deferments, like other deferments, are not exemptions from military service. He said a deferred student has an obligation to serve later.

"Under new amendments to the law," he said, "men deferred to go to school, for civilian jobs, as farmers, or because of dependents, will be obligated to serve until age 35."

The obligation stops at age 26 for all others.

Crusade For Freedom Scheduled To Oct. 15

Communism is taking a dubbing from people all over Texas thru the Anti-Red drive called Crusade for Freedom, Texas Crusade Chairman Lieut. Gen. Preston A. Weathered said today.

The freedom drive passed its halfway mark this week. It is scheduled to have an extended run until October 15.

The program to quieten the Soviet menace seeks to enroll 862,500 freedom loving Texans to "combat Communism and send more messages of truth and hope to millions trapped behind the Iron Curtain."

Signers are asked to back up their signatures with contributions to support Radio Free Europe, a network of Crusade-operated radio stations sprinkled along Red controlled countries.

RFE stations blast lies and propaganda of the Kremlin and send freedom's truth and peace to enslaved peoples everywhere. Stations also expose plots of the Reds.

"This privately operated American enterprise has given the Soviets more headaches than any other weapon in the cold war," General Weathered said. "It

tells the truth and truth is a killer of Communism."

Texas wishing to participate in this patriotic program can send their contribution to the Crusade for Freedom, Dallas, Texas. Their names will be added to the list of those who want to protect the American way of life by eliminating Communism.

The Texas Junior Chamber of Commerce has adopted the Crusade for Freedom as a statewide project. Jaycees are carrying on local Crusade drives in nearly every section of the state.

Mr. and Mrs. Felix Matula and children, Martin and Judy of California are guests in the home of his parents, Mr. and Mrs. Joe Bartek of Buckholts.

Winter Legumes Being Issued Now

Beneficial rains have given Milam County farmers a good start on their Winter Legume planting this fall. In the past two weeks hundreds of farmers have taken advantage of the assistance PMA gives farmers to carry out this important practice.

The planting of Winter Legumes this fall is very important because the drouth prevented getting a good cover or growth last fall. Many farmers who normally plant Winter Legumes did not plant any last year because of the drouth but are planting them this fall.

Cover crops are an effective means of getting increased production per acre. Each additional acre of properly grown legumes planted this fall and turned under next spring could mean as much as 25 to 50 per cent more production of corn, cotton or other needed crops grown in 1952. Increases from legumes means savings in labor, in nitrogen fertilizer, and in equipment.

A good cover of Legumes on the land to be planted in cash crops next year is good insurance against the kind of drouth we had in Milam County this year.

Farmers who have not obtained their Legume seed are urged to do so at once to avoid any shortages of seed that may develop later.

Ft. Hood Expansion Will Be Opposed.

Gatesville, Sept. 22.—A meeting to formulate a strong protest against any expansion of the Fort Hood reservation over Coryell acres and to plan an attempt to forestall such a move will be held in the district court room here at 10 a. m. Thursday.

The meeting has been called by the agricultural committee of the Gatesville Chamber of Commerce, and C-C President Albert Dickie will preside.

Invited to attend are any interested persons, and urged to be here are all landowners in the threatened area that borders the Hood reservation.

Dickie said that the meeting was called "in response to the unrest that has been caused by persistent rumors that the Government's going to annex additional acreage at Fort Hood." Ways and proper officials Coryell's high means of bringing before the proper officials Coryell's high feeling against further inroads upon its farm and ranch lands will be discussed at the Thursday session, he said.

Rumors have been rampant for several weeks now that the Hood area will be enlarged so that the Army's heaviest tank guns can be safely fired there. Washington officials have admitted that such an expansion is being considered, but maintain that no definite plans for acquiring more land have been made.

When Fort Hood was set up back in 1942, 137,000 acres of Coryell land were taken into the reservation.

Eighteen Young Men Named In September Draft Registration

Eighteen seems to be the monthly registration for Local Board No. 92, or so it has been for the two months now. The same number of eighteen year olds registered during the month of September as during the month of August.

August G. Kunz, Chairman of Local Board No. 92, has released the names of eighteen year old Milam County young men required to register during September and these are as follows:

Denson Delano Rubac, William Wayne Marek, M. C. White, Earl Ray Lewis, Allan Dean Cummings, Charles Thomas Chandler, Billy Ray Duncan, Morris Earl Johnson, Frank Robert Skala, Jr., Robert Junior McGary, Hubert Stephenson, Luis Nunes Gonzales, Glenn Arthur VonRosenberg, Giles Bruce McDermott, Juan Raymond Ramirez, Donald Eugene Thweatt, Nicolas Valverde Garcia, and R. L. Green.

Social Security Act Extends Coverage To Self-Employed

Many self-employed persons do not know that the 1950 Amendments to the Social Security Act extend coverage to them, according to James B. Marley, Manager of the Austin Social Security Administration.

Alcoa To Produce Tar By-Products In Milam Co. Plant

Washington, Sept. 26.—Millions of gallons of urgently needed tar will be produced yearly at the Aluminum Company of America's new Milam County plant, Congressman W. R. Poage, said.

Officials of the Texas Power and Light Company have told the representatives that the tar will be extracted from the lignite which is used as the fuel to produce electricity for the \$115,000,000 plant.

The plant which is expected to be completed in the fall of 1952, will be the first in history to use the lignite (subbituminous coal) for fuel.

Texas Power and Light will have charge of the operation of the power plant, and the power company's officials told the congressman that the tar will be derived from the lignite when it is being prepared for use as fuel.

This tar then can be used as a source of creosote for preserving wood; a source of materials for the manufacture of plastics, and as a base for roofing pitch.

Possibly the most important use of the tar will be gained from the pitch, which can be used in electric furnaces to form electrodes.

The pitch produced from coal tar cannot be used in electric furnaces, and at the present time the only pitch used in the furnaces is formed from petroleum tar.

The power company officials have told the congressman that production of petroleum tar has decreased sharply in the past several years, and this year tar will fill the urgent need that now

exists for a pitch to be used in the furnaces.

The actual amount of tar to be produced will depend on the size of the converting unit installed at the plant. This has not been decided, but the officials are sure that yearly production will be "millions of gallons."

The power company will use a new process to extract the tar from the lignite at relatively low temperatures.

A Tribute--

To Veterans of Foreign Wars!

In the Pacific at Iwo Jima, Guadalcanal, Guam, Bataan... over the burning desert of Africa outfoxing Rommel, the German fox... in and over Europe in valiant armies, in heroic planes, in victorious subs, in giant battlewagons, there were the men who fought and won... the men who today comprise our Veterans of Foreign Wars. These lads were on the firing lines. They carried the conflict to the enemy's shores and cities. They kept the flames from spreading to our homeland... and for their deeds and daring we salute them as among the greatest of great Americans!
